License: Dual-structured

- **\*\*Non-commercial public release\*\*** under [CC BY-NC 4.0](https://creativecommons.org/licenses/by-nc/4.0/)
- **\*\*Commercial, strategic, or governmental use\*\*** strictly **\*\*requires prior written consent\*\***

---

## ## Overview

**\*\*SENTRY-LOGIC\*\*** is a symbolic observability and auditing framework for large language models (LLMs).

It allows advanced semantic oversight via symbolic mappings ( $\Delta$ ,  $\rightleftharpoons$ ,  $\wedge$ ,  $\Omega$ ), visual alert structures, and replayable analysis paths.

This version is released for **\*\*research, academic, and educational use only.\*\***

Any integration into **\*\*commercial, military, governmental or strategic environments\*\*** is **\*\*not permitted\*\*** without written authorization from the author.

---

## ## Licensing Terms

### Permitted (without contact):

- Academic citations and reference use
- Non-commercial testing in research labs
- Educational adaptation with author credit

### Restricted (requires contact):

- Integration into commercial systems
- Use in cybersecurity products, SIEMs, LLM-Sandbox tools
- Deployment in national security, defense, intelligence, or governmental systems
- Replication in monetized SaaS or security platforms

---

## To request access or licensing:

If your organization wishes to:

- Deploy SENTRY-LOGIC in a mission-critical or sensitive environment
- Integrate the methodology into proprietary or national frameworks
- Request symbolic defense architectures for internal use
- Discuss tailored modifications or NDA collaboration

**\*\*Please contact: [tomirn@mailbox.org](mailto:tomirn@mailbox.org)\*\***

Written approval is mandatory prior to any use outside of the non-commercial scope.

All violations will be considered breaches of international licensing terms.

---

## ## Statement of Intent

This framework is released to the public \*\*as a gift of symbolic defensive logic\*\*,

but carries the cost of recognition and responsible stewardship.

For collaboration, licensing, or institutional access –

\*\*the architect is ready.\*\*
